- Two profiles offering the option of dado or skirting level installation.
- 35mm deep outlet boxes enable deeper accessories to be accommodated.
- Ex-stock availability in white, mahogany or light oak.
- Additional colours and specialised surface finishes are available (minimum quantities apply) offering the possibility of matching an existing colour scheme.
- Seamless installation - moulded accessories mask all lid terminations.
- Metal screening inserts available to prevent "spiking" if required.

British designed and manufactured, the MERLIN RANGE offers a segregated cable management solution for perimeter access of power, voice and data circuits.

Each service has its own designated compartment, which can be accessed independently.

New build, refurbishment and retro-fit projects can all be accommodated.
