

DRAGON³

Dragon ECC Oil Filled Radiator

TRD0820ER

Dragon is the stylish oil filled electric radiator which combines the advantage of a larger radiating surface with the speed of hot air convection. With eight models to choose from the Dragon offers the perfect solution to portable, effective, silent heating for your home or office.

Electronic Climate Control (ECC) is the latest technological advancement in portable heating, and is featured on the ECC versions of the 2kW Dragon. The ECC;

- Automatically monitors and selects the ideal power setting to maintain your chosen temperature (from 5°C froststat to 35° C)
- Allows you to keep your room at a constant and consistent temperature
- By monitoring closely the power and temperature level it ensures high energy efficiency. Benefiting from all the features of the Dragon range **these heaters also have**
- 24 hour digital clock
- Digital timer to programme two time periods
- 10 year guarantee

Heat Settings 900W / 1.1kW / 2kW
