

Single & Twin Lightpack Opal Diffuser *Attachment*

A range of Opal diffusers extruded from opal polystyrene material with reeded sides and prism effect for improved light control, designed for use with the Lightpack range. This product reduces glare in Commercial and Domestic applications, as well as enhancing the appearance of the luminaire. Fitted as standard to DEP range.

APPLICATION

Schools, offices, kitchens, workshops etc.

SPECIFICATION

Manufactured from ultra-violet stabilised polystyrene material.

Packed two per carton, with white endcaps.

VARIATIONS

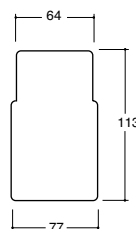

If intended for use with LPV/LPT Twin Lightpack luminaires, please order using LPDT references.

EXPORT

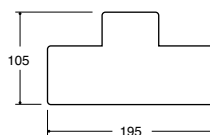

As for UK market.
